## PROFILE

UX/Product Designer with **7+ years** of design experience, including **2+ years** leading end-to-end UX for enterprise tools, SaaS platforms, and consumer products at **ShareChat** and **Moj**, and independently for early-stage startups. Owns the full design lifecycle end-to-end: research, information architecture, wireframing, and high-fidelity prototyping, turning ambiguous **0-to-1** problems into shipped, measurable outcomes including **₹9.4L/month** in cost savings, **4,000+ man-hours** saved, and consistent **DAU growth**. Partners closely with founders, PMs, and developers to move fast without sacrificing craft.

---

## SKILLS

**Design & UX:** UX Design, Product Design, User Research, Wireframing & Prototyping, Interaction Design, Design Systems, Information Architecture, User-Centered Design

**Tools & Platforms:** Figma, Adobe Creative Cloud, Notion, Clarity, HubSpot, Cursor, Vercel, Claude AI

---

## EXPERIENCE

### Freelance & Contract UX Designer | Self-Employed, IDX Studios & Pillowcase Studio | March 2024 – Present

- Designed a personal portfolio using **Claude AI**, **Cursor**, and **Vercel**.
- Owned full-cycle product design for **RazeHQ**, a **0-to-1** gifting platform — led discovery, defined information architecture, and delivered wireframes through high-fidelity prototypes.
- Designed Ekai's website and Slack-based onboarding flow, improving new-user **first-run experience** for early adopters.
- Delivered **3 client product revamps** (Pillowcase Studio, Fly My Visa, Snout), managing design scope and stakeholder feedback independently.
- Built scalable Figma templates and design systems for Studio Kitzu, improving **cross-team consistency** and turnaround time across client projects.

### UX Designer | ShareChat (Business Pods & BOT Team) | Jan 2021 – Feb 2023

- Owned end-to-end redesign of the Profile Moderation Tool, cutting average handling time and saving an estimated **₹4.3L/month** for internal ops team.
- Led design for a bulk notification scheduler and two tagging tools on the Mastertool Dashboard, saving **4,000+ man-hours** and **₹9.4L/month**.
- Built the history-log UI for an internal experimentation tool, supporting the broader product analytics workflow.
- Directed social-media template systems and campaign web pages for the Moj App, cutting design turnaround from **5 to 2 hours** while driving **1M+ impressions** and DAU growth.
- Designed ad creatives, email templates, and newsletters that consistently drove a **14% open rate** and **4% CTR**.
- Redesigned the Careers webpage and Explore/Profile web experiences, contributing to a **0.24% platform-wide DAU increase**.
- Partnered with research and data teams (via Clarity) and ran iterative **A/B tests** to validate design decisions across tools and campaigns.

### Graphic Designer | ShareChat (Moj) | Nov 2020 – Dec 2020

- Designed Figma-based UI systems for in-app communications, event flows, and personalized cards, cutting turnaround time from **10 to 3 hours**.
- Ran **A/B tests** on notification banner content and illustration style to improve CTR.
- Designed Figma templates and automated the daily meta ads production to reduce turnaround time.

### Graphic Designer | Circle App | Feb 2019 – May 2020

- Designed hyperlocal video-ad templates (**3,000+ videos**, **~₹10L in revenue**) and Facebook ad creatives (avg. **₹3 CPI**) that drove installs and DAU — foundation in visual design, campaign creative, and rapid iteration that carried into later UX work.
